Kalyan ,Mumbai • + 91-7208521535 • vikharankarayush14@gmail.com • [Portfolio Link](#)

OBJECTIVE

Aspiring software developer with hands-on experience in React Native, the MERN stack, AWS, Docker, TypeScript, and Next.js. Eager to contribute my skills in building responsive user interfaces and optimizing databases. Passionate about building scalable full-stack applications, learning modern technologies, and contributing to innovative products in collaborative engineering environments.

EXPERIENCE (<https://github.com/ayushv14/>)

- RIMIGO (Software Developer)** JAN 2026 – PRESENT || BENGALURU, INDIA
 - Working on AI-driven travel products at Rimigo, recently featured on Shark Tank India, contributing to full-stack feature development, deployments, and production bug fixes using Next.js, TypeScript, Python, and cloud services.
- DWEBBOX (Mobile Application developer)** JUN 2025 – AUG 2025 || MUMBAI, INDIA
 - Contributed to GenWe and SFS, scalable mobile and web applications built with React Native, Node.js, AWS, and Docker.
 - Implemented CI/CD pipelines, real-time chat, media sharing, notifications, and AWS EC2 deployments.
- TECHCOMMIT (App Developer Intern)** FEB 2024 – MAY 2024 || MUMBAI, INDIA
 - Built TribeX, a React Native app for creators to sell courses, build communities, and track habits using Neon backend services and in-app purchases.
- RHFL FOUNDATION (WEBSITE TEAM LEAD)** OCT 2024 – DEC 2024 || MUMBAI, INDIA

PROJECTS

- Stu-DevOps API - [Github](#)
 - Worked on a DevOps-focused project designed to take a simple REST API from local development to full production deployment with observability. So far, completed milestones include building a REST API, containerizing it with Docker, setting up one-click local development, and configuring a CI pipeline with GitHub Actions using a self-hosted runner. Upcoming steps include deploying on bare metal, Kubernetes, Helm, ArgoCD, and setting up observability dashboards with alerts.
- Meeting WebApp ([Website link](#))
 - Created a video conferencing and scheduling platform using Next.js and Stream's Video SDK. Features real-time meeting setup, calendar integration, and secure user authentication. Styled with Radix UI and Tailwind CSS for a clean, responsive interface

KJ SOMAIYA COLLEGE OF ENGINEERING

Bachelor of Information Technology(IT) Engineering, Honour of Artificial intelligence (AI)

CGPA : 7.9(Current Avg till 7th sem)

Mumbai, India

2022-2026

SKILLS

- Proficient in React, Next.js, and React Native (Expo Go) with experience in DevOps and AWS, skilled in SQL/NoSQL databases (MongoDB, ConvexDB, NeonDB), and deploying full-stack applications using Git, API integration, and cloud platforms.
